Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Data Flow Architecture :
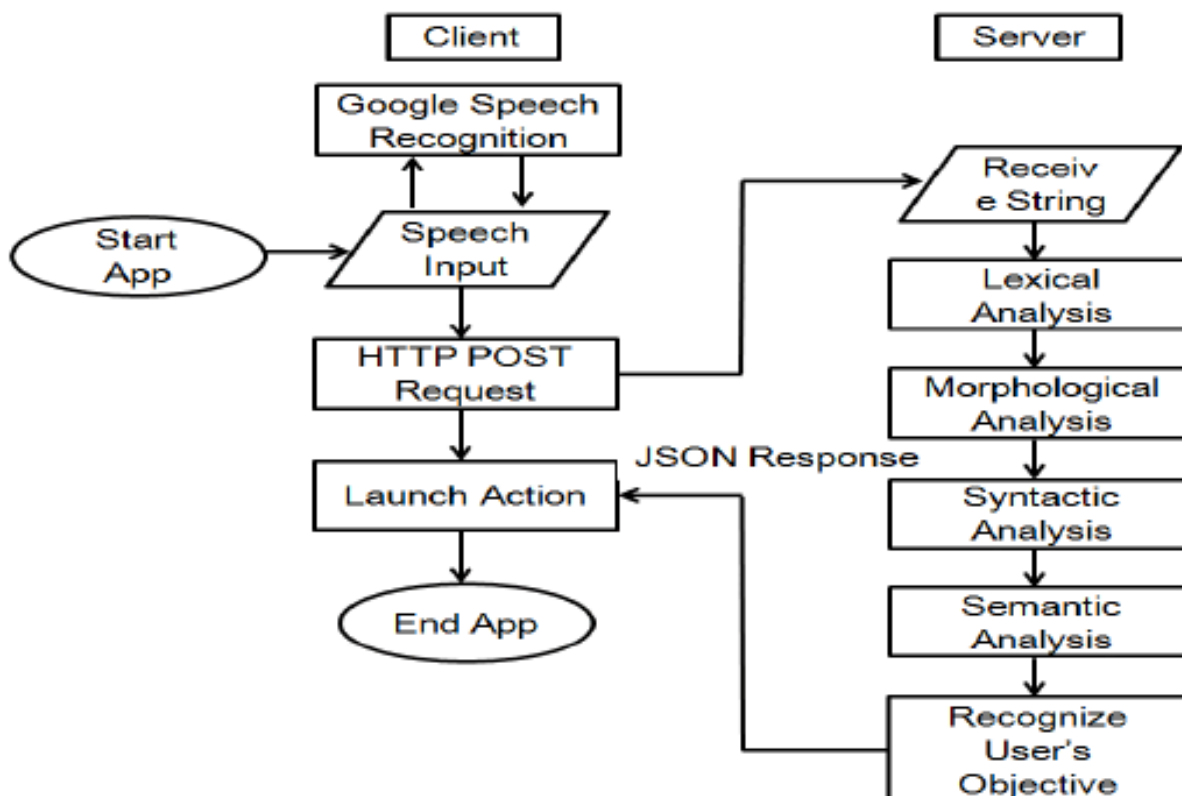

Flow Diagram : Data
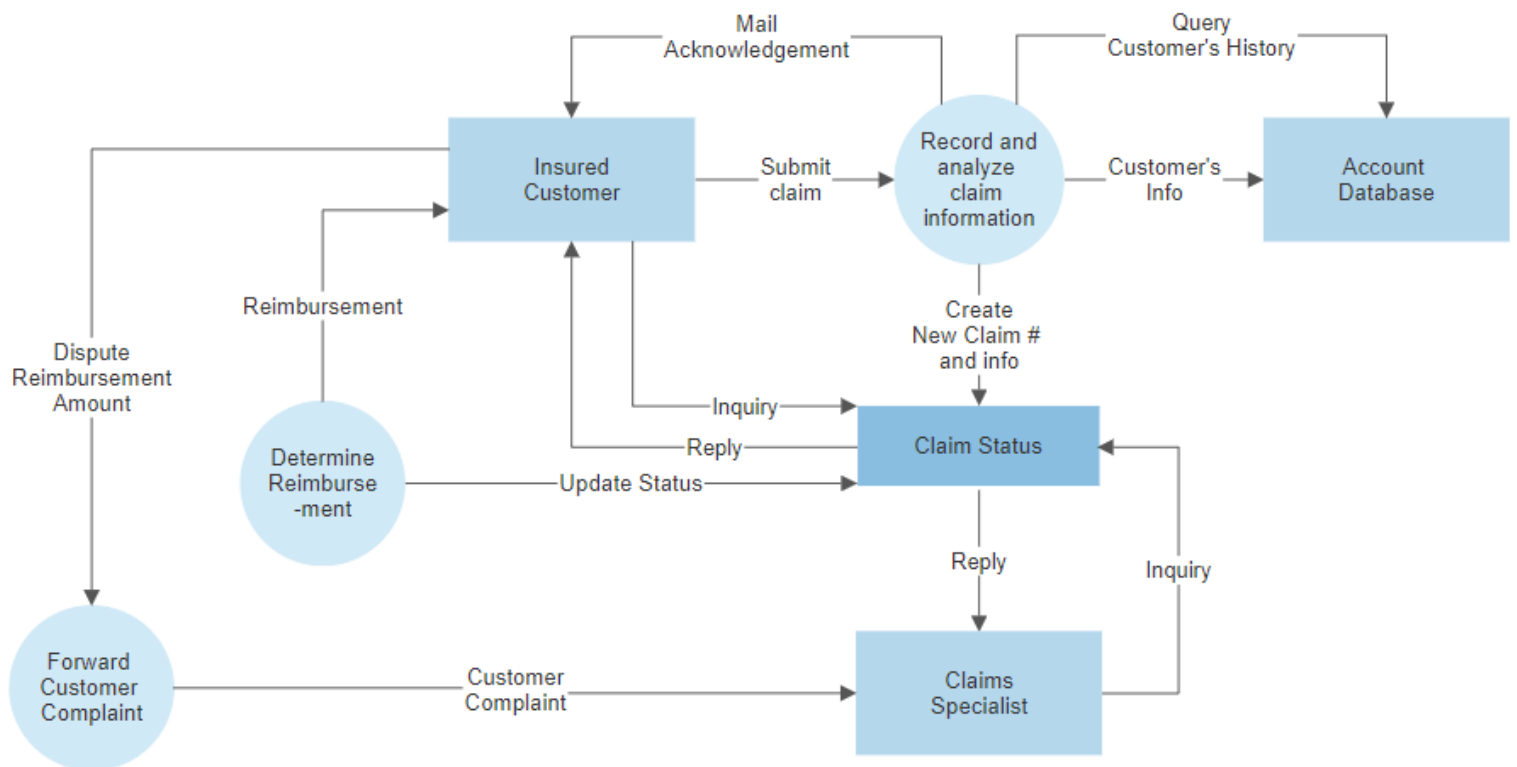

User Stories :

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Priority
Customer	Registration	USN-1	As a user, can search the house price prediction	High

			application name ,and download the web application.	
(Mobile user)				
	Registration process	USN-2	As a user , can enter the details are First name, Last name, phone number, address ,price expectation ,authorization ID(aadhar, Pan, Driving license..)	High
	Login	USN-3	As a user, I sign in the web application for my requirements.	High
